Willerby & Kirkella, Tranby & Anlaby August 2025

Willerby & Kirkella Ward – July 2025

Tranby Ward – July 2025

Meet the team-

Your Neighbourhood Policing Team (NPT) plays a vital role in tackling many of the local issues that matter to you. They are out in your area every day, and always available to offer crime prevention advice or for you to raise concerns with.

Each NPT consists of a dedicated Sergeant, Police Constable (PCs) and Police Community Support Officers (PCSOs) all under the command of an inspector. While they may be the ones you see the most, the NPTs do not work alone. They are supported by staff and officers from across the whole Humberside Police force area, and they work closely with local authorities, community leaders and residents to decide the local policing priorities for the area and find useful, long-term solutions.

Our approach is shaped by four key themes: We protect vulnerable people and keep people safe; We are out in your communities, visible, listening and working with you to deliver the services you need; We successfully tackle crime and ASB; We will be there when you need us.

Humber-talking has set our priorities, this month we are to:

- 1. Reduce thefts** - We will continue to address high demand locations. We will, by default, carry out high visibility foot patrols in these areas and will deal with any offences positively in conjunction with our Patrol colleagues. We continue to liaise with shop managers offering assistance and crime prevention advice. The shop watch radio scheme continues to be used.
- 2. HumberTalking** - Humber Talking is still being undertaken in the surrounding areas. We will be speaking with householders on their doorstep however if you would rather participate online and highlight any issues you think the Police should be dealing with, please visit the website. www.mycommunityalert.co.uk/humbertalking
Your responses help us better understand our area and prioritise issues to be tackled.

Parish/Town News Release

- 3. Reduce burglaries** - There has been an increase in residential burglaries in the area, in particular sheds and garages. We shall increase our patrols and provide as much high visibility as possible throughout August and beyond.

Engagements:

In August 2025, the dates and locations are as follows

To be confirmed

Come and speak to us about issues effecting you and have a say in a setting in the Community Priorities for the area you live.

Please note these times and dates may be cancelled at short notice, due to ongoing incidents on that day

Parish/Town News Release

Neighbourhood Policing is so much more than community engagement to all our officers, it's an opportunity to make a difference in tackling crime, anti-social behaviour, working with partners to solve community-based problems as well as gathering information to help inform the bigger policing picture.

"I hope that you enjoy finding out a bit more about them and the brilliant work they do to remain community focused, workforce focused, and victim focused day in day out.

"Together, we can make our streets safer this summer, and beyond."

Keep an eye on our website, and social media accounts for more on what we're getting up to, and of course sign up to [My Community Alert](#) to find out what's happening on your street

Stay safe, stay water-wise!

The East Riding region, with its long stretch of coastline and large tidal river, is a beautiful yet potentially dangerous place to enjoy water activities. Whether you're visiting the sea, a lake, a river, it's important to be aware of water safety.

Water safety tips:

- Obey any warning and safety signs
- If you are going out on your own, let someone know where you are going and when you are coming back
- Look out for trip or slip hazards around water and stick to proper pathways
- Remember riverbanks and cliff edges may be unstable and give way

What to do if someone falls into deep water

If someone falls into deep water, the first thing to do is call 999 for help. Use the **What3Words app** to help emergency services find you. The app uses a unique three-word address to pinpoint your exact location, so help can reach you quickly.

Never enter the water to try to save someone.

Remember: Float to Live

If you find yourself struggling in the water, don't panic. It's natural to want to swim hard, but cold-water shock can make this dangerous. Instead, focus on Floating to Live.

- Tilt your head back with your ears submerged to help you float. Relax and breathe normally.
- Spread your arms and legs to stay more stable. Don't worry if your legs sink a little – we all float differently!
- Once you're breathing normally, call for help or swim to safety.

Do you know what your child is doing behind closed doors?

Parish/Town News Release

For the first time, Counter Terrorism Policing, MI5, and the National Crime Agency are jointly calling on parents and carers to support their children to be safer online during the summer break.

We are increasingly seeing children being routinely exposed to the most serious harmful online content.

This includes sexual violence, self-harm and suicide content, extreme gore, animal cruelty, indecent images of children, and terrorist content.

This bombardment of online harms can quickly become normalised. Worryingly, some of the children who come to our attention are completely desensitised to extreme and obscene content.
